

all the way
for roadside safety,
always!

SAFETY-PRODUCT

ZIPpole

Update, april 2015 (active links in .pdf file)

Different non-profit organisations, for road design and traffic safety, stimulate the use of CE marked products regarding EN12767. Crashes between vehicles which leave the road and roadside hazards are a major safety problem. More information through this link: <http://toolkit.irap.org/default.asp?page=treatment&id=29>

The Flemish road authority launched their "Manual for forgiving roadsides". The text in Flemish is on their website. Let us know if you'd like to receive it in English. Within this manual, guidelines are given on how they will design safe roadsides and how they will treat obstacles close to the road.
